in the Petition filed on April 15, 2003, Applicant filed a Notice of Appeal in response to a final rejection by the Primary Examiner dated August 31, 1999, raising both prior art and formal grounds of rejection. Applicant's Appeal Brief addressed both the prior art and the formal grounds of rejection, and the Examiner's Answer expressly withdrew the prior art grounds of rejection. The Board of Patent Appeals And Interferences reversed the formal grounds of rejection but the Examiner re-opened prosecution on the merits raising prior art rejections based upon the same prior art references applied in the final rejection dated August 31, 1999.

In the Petition filed on April 15, 2003, Applicant argued that the re-opening of the prosecution on the merits after appeal to reject the appealed claims on prior art known to and applied by the Examiner prior to the Appeal, where all prior art rejections made prior to the filing of the appeal were expressly withdrawn by the Examiner, violates 37 CFR 1.198 because 1). the grounds of prior art rejection raised by the Primary Examiner in the reopened prosecution have already been adjudicated by the Board (by default), and 2). because the Primary Examiner has failed to show good cause why prosecution should now be reopened to reject claims over identical prior art known to the Examiner prior to the filing of the appeal and expressly withdrawn by the Examiner prior to decision by the Board, as are more fully addressed at Section III, starting at page 3 of Applicant's Petition filed on April 15, 2003.

The Decision on Petition dated November 19, 2003, states that the Board only adjudicated the formal grounds of rejection, and never adjudicated the rejection of the claims over the prior art. However, this occurred only because the Examiner expressly withdrew the prior art rejections in the Examiner's Answer prior to the decision on appeal, but allowed the appeal to proceed based only on the formal grounds of rejection.

The Decision On Petition states "...no where in the record is it indicated that the claims were allowable over the prior art of record." Applicant respectfully disagrees. The fact that the Examiner withdrew all prior art rejections in the Examiner's Answer (in response to the arguments advanced by Applicant in the Appeal Brief that the claims are allowable over the prior art applied in the final action), and that the Examiner allowed the appeal to proceed based only on the formal grounds of rejection is, at the least, an implicit admission that the Examiner considered the appealed claims to be allowable over the prior art of record.

The Decision On Petition dated November 19, 2003, also states that "...the new grounds of rejection under 35 U.S.C. Section 103 show sufficient cause to warrant the reopening of prosecution". However, the Decision On Petition fails to provide any explanation why the new grounds of rejection, which are based upon the identical prior art references cited and applied in the Final Action dated August 31, 1999, were not made by the Examiner

prior to Decision by the Board on Appeal, particularly when the Examiner expressly withdrew all prior art rejections in the Final Action but allowed the Appeal to proceed based only on the formal grounds of rejection.

Applicant respectfully submits, for the reasons addressed in the Petition filed on April 15, 2003, that the reopening of prosecution on the merits after decision by the Board for the purpose of raising prior art rejections based on the identical prior art references applied by the Examiner prior to the Appeal, which were expressly withdrawn by the Examiner prior to the decision by the Board, violates 37 CFR 1.198.

Applicant respectfully requests reconsideration and reversal of the Decision On Petition, dated November 19, 2003, denying Applicant's Petition filed on April 15, 2003.

Enclosed are copies of Petition filed on April 15, 2003, and the Decision On Petition dated November 19, 2003.

Also enclosed is a notice of Change Of Attorney's Correspondence Address. Please forward all further

correspondence regarding this patent application to the address indicated on the enclosed notice.

Respectfully submitted,
